PROJECTS

Wynk Clone | [Wynk Clone](#)

08/2023 - 09/2023

A Wynk clone is a music streaming app replica that offers a wide array of features for music enthusiasts. It boasts an extensive music library, personalized playlists and a user friendly interface, providing a seamless music listening experience akin to the original Wynk app

- Vast Music Catalog: Access an extensive library of songs across various genres and languages.
- Search and Discover: Robust search functionality and music discovery algorithms.
- User Profiles: User registration and profile customization.
- Subscription Tiers: Offer free, premium, and family subscription plans.
- Trending Charts: Display charts for trending songs and albums.
- Integration with Payment Gateways: Support various payment methods for premium subscriptions..

Book My Show [Book MyShow](#)

07/2023 - 08/2023

A BookMyShow clone is a web app for booking movie tickets with features like user registration, movie listings, and seat selection

- Developed a movie platform with features including movie list, genre filtering, and search functionality, improving user experience and saving time.
- Implemented user registration and login functionality along with a seat booking and checkout page, enhancing the overall movie- watching experience.
- Utilized HTML, CSS, JavaScript, React, and Redux to create the movie platform, showcasing proficiency in multiple technical stacks.
